THIS MEANS SOMETHING.

JAMAICA, L. I., JAN., 2d, 1905.

S. D. WOODRUFF & SONS, 82 DEY ST., NEW YORK.

GENTLEMEN:—

The Southport Yellow Globe Onion seed we purchased of you last Spring produced a crop yielding over eleven hundred bushels of Onions per acre. Book us for 25 lbs. for this Spring sowing.

We were also well pleased with the Ensign Bagley Potato from which we harvested and sold four hundred bushels of Potatoes per acre. We shall need fifty barrels for planting this Spring.

Very Truly Yours.

W. and J. R. VANSICKLEN.

The Van Sicklen Brothers are two of the largest and most successful truckers on Long Island.

FERTILIZERS.

We urge our largely growing trade in WOODRUFF'S HOME MIXED FERTILIZER (see page 33) to order early as the greatly increased sales tax our mixing capacity to the utmost.

Don't fail to try even if on only one acre the new Bacteria Fertilizer Nitro Culture, see next page for description and price.

SEED CATALOGUE

1905

S. D. WOODRUFF & SONS,

ORANGE,
CONN.

82 and 84 DEY ST.,
New York City.

DEAR FRIENDS:—

This little book we have placed in your hands, hoping in so doing that you would be induced to place your order for Garden, Field and Flower Seeds with us. We have endeavored herein to confine ourselves strictly to facts, to be brief, because you are busy, to be concise, because your seeds must be true. We are lifelong seed growers. Our seed farms at Orange, Ct., where the members of our firm live are open to the inspection of our customers and friends. You are always welcome to visit us either at our New York Store, 82 and 84 Dey Street, N. Y., or at our farms at Orange, New Haven County, Conn.

HOW TO SEND MONEY,

We will receive postage stamps, if received in good condition, same as cash. Remit by P. O. or Express Money Order, or Registered Letter. Personal check or draft received from parties of established credit. Make Postal Money Orders payable at Derby or Orange, Conn.

POSTAGE.

Seeds will be mailed postpaid in quantities of 1-4 lb. and less. Quantities of 1-2 lb. and over will require postage at the rate of 8 cents per lb. in addition to catalogue prices. Peas and beans require 15 cents per quart, and corn 10 cents per quart in addition to catalogue prices.

WE PAY THE FREIGHT.

On orders to the amount of \$7.00 or over, at catalogue prices, where cash accompanies orders, we will deliver goods to your nearest station, charges prepaid. Excepting, we cannot pay freight on potatoes or onion sets.

DISCOUNTS.

Market gardeners who purchase ten, twenty or more dollars' worth of seeds, naturally expect a lower price than those who purchase but a small amount, and we will make the following discounts from catalogue prices where cash accompanies order: on seeds in packets and by the ounce, we will mail, postpaid for one dollar, seeds to the amount of one dollar and twenty-five cents. On orders amounting to ten dollars and upwards, deduct 5 per cent. where cash is sent with order, except on potatoes, onion sets and grass seeds.

THE NEW BACTERIA FERTILIZER

NITRO-CULTURE

DOUBLES YOUR CROP

NO TIME.

NO LABOR.

LITTLE EXPENSE.

RESULTS GUARANTEED OR MONEY REFUNDED.

Nitro-culture is a germ, sold in dry packages like a yeast cake. (Dissolve in water as per directions which come with each package).

When seeds are sprinkled with the solution before planting, the germs multiply in the soil very rapidly, and cause nodules to form on the roots of plants. These nodules collect the nitrogen out of the air, and feed the plant roots.

Nitrogen is plant food, and therefore a tremendous increase in crop is bound to come.

WHAT IS CLAIMED FOR NITRO-CULTURE.

On poor or sandy soil, any leguminous (*i. e.* pod bearing) crop, such as clover, alfalfa, beans, peas, vetch, peanuts, etc., can (provided good seed is used) be more than doubled the first year, by merely moistening the seed with a solution of Nitro-Culture bacteria and allowing it to dry on the seeds before planting. Perhaps the greatest benefit may be derived the second year when any crop, such as wheat, corn, cotton, potatoes, etc., may be planted without fertilizer, and they will yield double what would otherwise be taken from the same land. Many persons claim that in money value this would be equal to \$20.00 per acre, or that a like amount would have to be expended on phosphates, capable of producing equal results. **Can you afford to overlook this cheap but effective method which nature has provided for the enrichment of the soil?**

PRICE LIST.

Nitro-Culture, sufficient to inoculate the following seeds per acre, mailed to any address in the United States or Canada at \$1.90 per acre: Alfalfa, Red Clover, Crimson Clover, Japan Clover, low Peas, Garden Peas, Sweet Peas, Wax Beans, Soy Beans, String Beans, Vetch, Velvet Beans, Peanuts, Lima Beans.

CARROTS.

Flushing, L. I.,
 Dec. 16, 1903.

S. D. Woodruff & Sons,
 Gentlemen:—I wish you to book me for thirty pounds of your Half Long Danvers Carrots, same as I had last year. I bought of three other leading seedsmen last year, but your seed grew the best crop of carrots. All the different lots of seed were sowed side by side, and given equal chance, but in every case your seed grew the finest crop.

Very truly yours,

H. D. Lott.

CAULIFLOWER.

Our Cauliflower is all grown in Denmark and is *proven seed*; that is one year old and that has been tested and has produced a good crop.

Our stock of Early Snowball Cauliflower is one of the finest ever put out, equal in every way to the originator's stock.

Henderson's Early Snowball. Very largely grown for an early crop. It is dwarf and a sure header; heads are large, white and solid. Pure stock. Pkt., 15c.; oz., \$2.50; lb., \$28.00.

Extra Early Dwarf Erfurt. One of the earliest varieties. Pkt., 15c.; oz., \$2.50; lb., \$20.00.

Le Normand's Short Stem Mammoth. A large stumped variety, and a standard for general cultivation. Pkt., 10c.; oz., 6c.; lb., \$7.00.

Veitch's Autumn Giant. Standard sure heading sort. Price per pkt., 10c.; oz., 6c.; lb., \$7.00.

John L. Moore, Lowell, Mass., writes under date of Nov. 15, 1904, I recommend your Snowball Cauliflower above any I have ever used, and I have tried seed from all the best seed men.

This means something as Mr. Moore is a very careful and experienced grower whose market that of Boston is most critical.

CELERY.

White Plume.

Our strains of White Plume and Golden Self-Blanching Celery are the finest we have seen, and we have tried a large number of strains. These items make many friends for us each season. Seed of these varieties is *proven stock*.

Golden Self Blanching.

Celery—continued.

PARIS GOLDEN, OR GOLDEN SELF BLANCHING CELERY.

Most important and largely used is this sort on account of its fine quality, golden yellow foliage and readiness in bleaching. No one item except Cauliflower and Cabbage depends so vitally on the seed. Our seed of this sort is French grown only and *proven seed*. Seed grown elsewhere can be purchased at less than one-third the price. Insist on the French grown article of this variety wherever you purchase.

Vitality of our seed is good this year, and we hope we have ample supply for our largely growing trade.

Pkt., 10c.; oz., 50c.; ¼ lb., \$1.25; lb., \$4.50; five lbs, at \$4.00 lb.

Woodruff's Beauty. A brand new green Celery of the finest quality. Our supply is so extremely small that we can sell only 1 oz, to a single customer. Pkt., 10c.; oz.; \$1.50.

SWEET CORN.

Country Gentleman.

*"The corn that made Orange famous."
(because it originated with us.)*

Sweet Corn Seed on earth, and we know we can protect our reputation this year for our Sweet Corn seed is better than ever. We have lots of it and at low prices. We supply choice selected ears when ordered. (They cost a trifle more but are better.) We reserve the right to ship shelled corn in place of ears when our ear corn has all been shelled. Try us on Corn seed, *we know* we can please you. We can supply you a pint or a carload.

Long Island Beauty. We put out this new main crop sort last season with more complimentary results than any one novelty last season. It is a large eared medium to late sort, ears about size of late Mammoth, of the finest quality. It remains in edible state longer than any variety we have ever seen. Pkt., 10c.; qt., 20c.; pk., \$1.00; bu., \$3.50; per 100 selected ears, \$3.50.

Country Gentleman. This well known superior sort needs no description. Originated by us in 1892, it has become a standard for quality and productiveness. Our constant selection makes our stock unsurpassed. Pkt., 10c.; qt., 20c.; peck, 90c.; bu., \$3.00; per 100 selected ears, \$2.75.

Real merit wins.

We pity a man without a country.

We pity a man without pride.

We have both.

We are proud that it fell to our lot to put out Country Gentlemen and Long Island Beauty Corn and Ensign Bagley Potatoes in the best country the sun shines on.

Any novelty of "real merit" helps the buyer and the seller alike. Helps the buyer in profits and the seller in both reputation and profits.

We believe we have the reputation of sending out the best

F. B. Estabrook,
East Northfield, Mass.

Connecticut is the home of the famous Southport Globe Onions. Our strains of Southport, Red, White and Yellow Globe varieties are unsurpassed. Send to headquarters for pedigree stock.

Southport Red Globe.

I am well satisfied with the onion seed I bought of you.

Geo. Geer, Baltic, Conn.

Franklin Co., Mass., Dec. 4, 1904.

Our dealings with your firm have been very satisfactory. Consider your seeds are reliable as any in the market and shall continue to use them.

W. L. Hubbard.

Northampton, Mass., Dec. 8, 1904.

Messrs. S. D. Woodruff & Sons,

Dear Sirs:—

In handing you my order for 100 lbs. of your Yellow Globe Danvers Onion Seed, I desire to say that where I used your seed the past season. I had the best crop, both as to quality and quantity, the seed was just as you represented it to be.

Yours respectfully,
Clayton S. Parsons.

Onion growers will do well to buy their seed direct from the growers of the seed. Our seed is all thoroughly tested and will please you as it does hundreds of other critical growers in the country.

PEDIGREE ONION SEED.

We use the term PEDIGREE for we believe our seed has gained a pedigree among the largest onion raisers in the east. Critical growers are realizing more and more the error made in buying onion seed because it is *cheap*. Our prices will not and cannot appeal to planters who want *cheap* seed, but the fact of our having orders at this date, Dec. 1, 1904, booked for thousands of pounds of seed for 1905 planting, orders received many of them unsolicited, speaks in no uncertain terms of the quality of the seed we supply the most critical growers of onions.

We feel justified in claiming for our seed all that can be said about any seed, viz: that it is *as good as can possibly be produced*. Now the reasons for this claim are these; we grow our onion seed from selected bulbs on our own seed farms. We carefully harvest and cure the seed. We offer it to you direct. The price is as low as we can produce the very best seed. *Once a trial order always a customer*, has always been our motto regarding onion seed.

TO OUR OLD CUSTOMERS.

We need say only that our 1904 crop Onion Seed is of strong vitality, no crops falling under 82% and most crops testing by careful test from 86% to 95%. Have no doubts about vitality this year. Our seed is plump, heavy and up to the usual high standard of quality.

Cheshire, Mass., Feb. 7, 1905.

DEAR SIR:—Last year I sowed your Yellow Globe Danvers Onion seed by the side of seed I bought of a reliable dealer near home. Plants from your seed took the lead, held it all summer, and at harvest time produced more than double the amount of fine onions which the other seed produced.

M. E. PHELPS.

SOUTHPORT GLOBE ONIONS.

Do not be tempted to buy onion seed of uncertain quality because it is a few cents less per lb. in price.

WE GROW ONION SEED BY THE TON.

Some of our competitors have circulated the story that we do not grow but a small part of the onion seed we sell. We deny these charges and make the positive statement that WE GROW ON OUR OWN SEED FARMS HERE AT ORANGE, CONN., thousands of pounds, YES, several tons of onion seed annually, and we believe we produce more onion seed than any other grower east of the Mississippi River.

We do not claim to grow all of the onion seed we sell, for some varieties are grown in other sections of the world better adapted for their particular types; but growing as we do a very large part of our seed, we have a right to claim that it is superior to much of the "cheap" seed on the market.

ONION SEED FOR GROWING ONION SETS.

The following sorts of onions are used for producing onion sets, and we quote special low prices for these in lots of not less than 25 to 50 lbs. of a variety, net cash.

Extra Early Red Flat and Red Wethersfield @ 70c. lb.

Yellow Flat Danvers, Yellow Strasburg and Australian Brown @ 55c. lb.

White Silverskin, White Portugal and White Queen @ \$1.10 lb.

SOUTHPORT WHITE GLOBE.

True seed of this onion can only be produced from carefully selected bulbs. Seed from such bulbs is not plentiful this year, but our customers will, if they order early while our stock lasts, obtain seed from pure white globe-shaped onions. We challenge comparison with any one on our seed of this variety. Price per pkt., 5c.; oz., 20c.; $\frac{1}{2}$ lb., 65c.; lb., \$2.25; 10 lbs. or over at \$2.00 per lb.

One of the expert onion growers in the Southport, Conn., section, wrote under date of Sept. 25, the following:

"The Southport White Globe onion seed I purchased of you last spring proved satisfactory in every respect. The onions grown from it are as good shape as those grown from my own seed, and the vitality of your seed was much better than my own seed."

We could print numerous other testimonials regarding our Southport Red Globe and Southport Yellow Globe varieties. Some of the finest crops in the United States grow from our seed.

Our prices are low considering quality of our seed. Give us a trial; we can serve you whether you use 1 oz. or 500 pounds. We have many planters among our customers who purchase annually from 50 to 200 pounds each.

Our trade on onion seed among the planters of America has increased over 50 per cent. each year for the past four years. The only reason we know for the increase is the fact that our seed has given universal satisfaction and good seeds have made for us many good friends.

The Early Cracker Onion.

ONION SETS

CHOICE PHILADELPHIA GROWN SETS.

WE ARE HEADQUARTERS FOR THE EAST.

No crop the farmer puts in the ground is surer to return a profitable crop, than a crop of onion sets. If you set good, sound sets and give them good soil and good culture, a fairly good crop is assured.

Markets for past two or three years have been good, and in almost every case crop has been a money maker.

Onion sets last spring advanced \$6.00 to \$8.00 per bushel.

IMPORTANT.
We Fill All Accepted Orders.

This fact was appreciated by our customers last spring when we were shipping hundreds of bushels of sets that were worth 2 and 3 times our catalogue prices. We can supply sets in any quantity from a pint to a carload of each variety, and have them now in storage both at Orange and New York.

Several of our customers reported yields of 500 to 550 bu. per acre from onion sets we supplied them in 1904.

Two of the Tools Every Onion Grower Should Own.

Universal Onion Drill.

Meeker Smoothing Harrow.

No one who raises one acre or more of onions can afford to do without this tool. It does away entirely with hand-raking the soil. Upon our own farms we would not be without one for three times its cost. Price \$20.50, or 5 per cent. discount for spot cash.

We grew on our farms last season a crop of onions from onion sets that yielded 640 bushels per acre.

This is the drill used almost exclusively by onion growers in the Southport, Conn., section, and it is needless to say that it is considered the very best drill in use. It sows with great accuracy two rows at a time, 12 or 14 inches apart. Net price, \$7.00.

I have tried the seeds of almost all the prominent dealers and find that yours do well for me every time, and I recommend others to take yours.

H. F., Plymouth, Conn.

Your seeds gave satisfaction the past season.

J. L. BURKE, Syosset, L. I.

Remember we pay freight on orders for \$7 00 or over when cash accompanies order.

PARSLEY.

One of the finest plants for garnishing; used for flavoring soups, stews and salads. Sow as early as possible in Spring in shallow drills fifteen inches apart, raking the soil fine and level on top. Cover the seed one-third of an inch. The plants appear in from two to six weeks. Succeeds in common garden soil.

Champion Moss Curled. The standard market sort. Our stock of this is extra double curled and one of the finest stocks to be had. Used very extensively on Long Island. Price per pkt., 5c.; oz., 10c.; $\frac{1}{4}$ lb., 25c.; lb., 65c.; 5 lbs. at 60c. per lb.

Fern Leaf. Very fine crimped leaves. Price per pkt., 5c.; oz., 10c.; $\frac{1}{4}$ lb., 25c.; lb., 75c.

Plain Leaf. A very hardy variety. Price per pkt., 5c.; oz., 10c.; $\frac{1}{4}$ lb., 25c.; lb., 75c.

PEAS.

Peas—Gradus or Prosperity.

or four days as early as Alaska, or any of the other round, extra early sorts, and you will get an idea of exactly what this pea is. Price per pkt., 10c.; qt., 40c.; pk., \$2.25; bu., \$8.00; 10 bushels, \$78.00 cash, no discount.

Thos. Laxton Pea. The growth of this sort is identical with Gradus; pods a trifle darker green, square at the end. Matures two or three days later than Gradus. Price per pkt., 10c.; qt., 40c.; pk., \$2.25; bu., \$7.50; 10 bushels, \$70.00 cash, no discount.

NEW PEA, AMEER.

A new pea from England, described by the introducers as follows: "A large podded extra early sort, resembling Alaska. In general appearance the peas and pod, however, are nearly twice as large as Alaska, matures three days later than Alaska.

From this description it will be readily seen that this pea must take a leading place for early market; the pods being twice as large as Alaska, and the peas being ready for market three days later than Alaska, will readily commend it to truckers. Price per pkt., 10c.; qt., 40c.; pk., \$1.75; bu., \$7.00.

ADMIRAL DEWEY.

In peas it is quite important to change the breed occasionally. This is particularly true of the large, late podded sorts. They are quite likely, after a few years, to become weakened to such an extent that they will not grow vigorous nor produce large pods.

We urge our customers this season to use the Admiral Dewey Pea for a part, at least, of their late crop. Admiral Dewey is a LARGE PODDED late pea. Vines two to three feet high, pods very large and dark green. Admiral Dewey will please you.

Price per pkt., 10c.; qt., 30c.; peck, \$2.00; bu., \$6.00.

I had good success with all the seeds got from you.

W. L. Bruce, Shellknob, Mo.

I wish to state that we have had very good luck with the seeds that you sent us. They were good seeds, indeed.

Geo. Linzmayer, New Mommouth, N. J.

I have always been pleased with the seeds I have received from you, and best of all they have proved true to name.

Albert Brown, Canton, Me.

I grew a large crop of potatoes from the one barrel I got from you last spring. I shall want several barrels next spring.

J. L. WHEATLEY, Federalsburg, Md.

The grass seed I bought from you turned out all right. My new lawn looks elegant.

John S. Critchley, Rowley, Mass.

Remember we handle grass seed by the car load, and it will pay you to drop us a line for prices, or send your order. We will always make lowest possible prices on High Grade seed.

POTATOES.

Nothing on the seed list requires more care and attention than the Seed Potatoes. Nothing with the average seedman receives so little. Careful as he may be about other seeds he will buy his stock of seed potatoes where he can get the most for his money and his customers suffer thereby. We have made a study of the seed potato question. We have obtained stock seed of the leading sorts listed below, which are very pure and true. We have storage facilities for 12,000 barrels in Maine. We employ there expert seed potato men to place our seed with the farmers, to receive, care for and ship the crop, and by this careful and well-developed method we are in shape to give your orders for Seed Potatoes prompt and satisfactory attention.

HOW WE HANDLE OUR SEED POTATOES.

First. We use great care in selecting our seed stock.

Second. We place this seed in the hands of careful, experienced growers who grow the entire product for us in Aroostook County, Maine, the home of the seed potato.

Third. We personally inspect the growing crops in the field and dig out any impure or off-type specimens which may have appeared.

Fourth. We receive the seed potatoes from the growers and store them in bins especially constructed to carry them through the winter without danger of frost or heating.

Fifth. We ship them in heater cars from the cold north to our warehouses at New York and Orange, or if your order amounts to a carload, we will ship direct to you and make you a special price besides for so large an order.

VARIETIES OF SEED POTATOES.

Ensign Bagley. We head the list with this most popular sort. Introduced by us in 1899, this potato is now more sought after than any other early sort wherever it has been tried. So great has been the demand for this sort that we last year planted one hundred acres, and the entire product of this crop will be sold by us to market gardeners for seed in this country, in Canada and in England, during the coming planting season. Prices, lb., 15c.; pk., 50c.; bu., \$1.60; barrel sack, 165 lbs., \$3.50; 10 bbls., \$30, cash.

Many dealers for the past few years have sold substitutes for this potato as true Ensign Bagley. Buy your seed direct from the originator and insure pure seed.

What Some Few of Our Customers Say of Ensign Bagley Potatoes.

The Ensign Bagley Potatoes I bought of you last spring gave good satisfaction, all you claim for them and more, both in yield and quality; have always found your seeds reliable.

S. G. YOUNG, Voluntown, Conn.

The Bagley potatoes purchased of you in 1901 and 1902 yielded very good and I am well satisfied with my crop both years.

L. H. LINDEMAN, Woodstock, Ct.

I will say your Ensign Bagley potato was fine, the best I have ever had, and Admiral Foote are fine also.

W. M. EMERSON, Concord, N. H.

The Bagley potatoes have been fine. None are earlier around here.

A. H. JOURDAN, Grafton, Mass.

I am very well satisfied with your seeds. Shall buy more extensively next year. I think very highly of your Bagley and Foote potatoes.

J. F. CROWELL.

TOMATOES.

Chalk's Early Jewel.

Sparks' Earliana. This has again demonstrated the claim that it is without doubt the very best of the earliest bright red sorts. It is an immense cropper and fairly good quality. Seed we offer is of our own growth of a selected type. Pkt., 10c.; oz., 40c. $\frac{1}{4}$ lb., \$1.00; lb., \$3.50.

Chalk's Early Jewel. Within one week as extremely early as the famous Sparks' Earliana, the fruits are uniformly larger, thicker through, more solid, and of finer quality. The plants are immensely productive; it is one of the most profitable tomatoes to grow for main crop,—aside from all consideration of its remarkable extreme-early character!

We grew a fine crop of this excellent sort and find it all that is claimed for it. Seed is of our own growing. Pkt., 10c.; oz., 40c.; $\frac{1}{4}$ lb., \$1.25; lb., \$4.00.

We offer all following standard varieties tomato seed, all saved from crops specially grown for seed.

SWEET, POT AND MEDICINAL HERBS.

Every garden should have its complement of Sweet Herbs. We can all appreciate their utility, both for summer flavoring and their opportune use medicinally. Their culture is so easy that none ought to be without them. Sow the seed in pan or seed bed in early spring, transplant as soon as weather will permit. Cut them when not quite in

full bloom and hang in shady places to dry. Pack away in box entirely excluded from the air.

JAPANESE BARNYARD MILLET

(*Panicum Crus Galli.*)

This wonderful and valuable new forage plant was introduced in this country by Prof. Brooks of the Massachusetts Agricultural Experiment Station. It has proven an enormous yielder in all sections of the United States where tried—hay and fodder of the most excellent quality growing on any soil, yielding 12 to 20 tons per acre, and growing 5 to 8 feet in height. Cattle and horses eat it greedily. Sow in May and June broadcast, 10 to 12 pounds per acre, or in drills, 8 lbs. per acre. Prices, lb., 15c.; (by mail, postpaid, lb., 25c.;;) 10 lbs., \$1.00; bu. of 32 lbs., \$2.00, by freight or express.

LAWN GRASS MIXTURE.

Our Lawn Mixture is composed of the finest re-cleaned grass seeds (not of the cheap, light chaff, weighing but 15 lbs. per measured bushel as put up by most seedmen.) Our Lawn Grass Seed weighs about 20 lbs. per measured bushel.

THE QUANTITY REQUIRED.

The quantity required for making new lawns is 4 bushels per acre, or for renovating old lawns, 1 to 2 bushels. For a plot 15 x 20, or 300 square feet, 1 quart is required for new, or 1 pint for renovating old lawns

Prices, 20c. per qt., 90c per pk., \$3.75 per bu. (If by mail, add at the rate 5c. per quart for postage.)

Grafting Wax. Price per ¼ lb., 10c.; ½ lb., 15c.; lb., 25c.

BARLEY. BARLEY. BARLEY.

We are headquarters on Barley. For sowing for a forage crop is being used very extensively. The early frosts do not kill it and it can be pastured clear into the winter. If cut in September it makes good hay. Price per bu., \$1.10; 5 bu. lots at \$1.00 per bu.

Price on all of above Field Seeds, Millets, etc., are subject to market fluctuations, and net cash, no discounts.

Write us for prices on all kinds of grass seeds. Can give you best varieties at lowest market prices.

STRAWBERRIES.

All plants shipped in best possible manner at purchaser's risk of damage in transit.

Abundance Strawberry. For past two years we have devoted quite a little space to this new and remarkable berry. We have tried it most thoroughly and it will outyield any sort we have printed in the entire list, and is the surest cropper. Abundance produces a crop every time when all other sorts fail. We have now a fine lot of plants and offer them at following very low price: doz., 50c.; 100, \$2.50; 1,000, \$7.00.

BORDEAUX MIXTURE.

(In liquid form) for black rot, mildew or blight.

The great increase in blight on Cucumber, Tomato, Potato, Celery, etc. during past few seasons makes it necessary to apply to these crops the well-known preventive Bordeaux Mixture, and since it is somewhat troublesome for the farmer to properly mix the formula we offer Blanchard's Bordeaux Mixture. One gallon of the mixture placed in 49 gallons of water will spray two to three acres of potatoes, etc., if applied with any of the modern spraying carts. Great profit must result in a careful use of this mixture on all crops affected by blight.

PRICES: 1 qt. can, 45c.; 1 gal. can, \$1.25; 1 doz. 1 gal. cans in case, per case, \$9.00; 3 doz. 1 qt. cans in case, per case, \$10.50; 10 gal. cans in case, per case, \$6.25; barrel, containing 50 gal., 60c. per gal.

Woodruff's Home Mixed Fertilizers.

Each year finds more and more progressive farmers buying Home Mixed Fertilizers because each year more farmers learn that in no other way can they obtain the greatest amount of plant food for the least money.

We have mixed our own fertilizer for use on our extensive seed farms for the past seven seasons and cannot too strongly recommend this method of buying fertilizers.

The successful results we have obtained from using Woodruff's Home Mixture on our own farms has induced us to offer these goods at a reasonable price, either mixed for use or unmixed, to the dozens of our customers who quickly see the extra value offered.

The fertilizer we offer is in every respect the same as we use on our own extensive seed farms, is made from strictly high-grade chemicals and mixed by ourselves. We buy these chemicals in 50 to 100 ton lots for spot cash, and by so doing we are enabled to sell a strictly high-grade fertilizer at a much lower price than the same quality can be purchased from manufacturers of ready mixed fertilizers.

We call Special Attention to 1904 report of Conn. Agricultural Experiment Station Page 50, Sample No. 11736; also page 64, Sample No. 11569.

Copies of this report will be mailed free, on request, by addressing the Conn. Agricultural Experiment Station, New Haven, Conn.

These analyses speak for themselves, and we are greatly pleased to note that with a single exception these are the only two samples out of a total of 95 nitrogenous superphosphates analyzed by the station whose valuation exceeds the cost.

These results to the intelligent and careful planter speak in most convincing terms.

The actual analysis exceeded our guaranteed formula in both cases by a wide margin.

We shall continue to make the same high grade formula, endeavoring as in the past to have our goods prove better than our guarantee.

We offer the following formula:

Ammonia,	4%	} Spot cash price	
Avail able Phos Acid.	8%		} \$27.00 per ton,
Potash,	8%		

This fertilizer is put up in sound second-hand bags and put F. O. B. cars, Orange, Conn. We can also quote chemicals in any quantity to any one desiring to mix their own goods.

If you compare this formula at this price with any standard goods, you will be able to judge of the great saving in price by using our Home Mixture. A trial order will convince you that you cannot afford to be without this money saver.
